Chiomenti Studio Legale

Hong Kong

East-meets-west is the key of the design of Chiomenti, reinterpreting the definition of contemporary design. Ubiquitous linear forms accented by soft curves are inspired from both Italian and Chinese culture. A combination of glass, wood and metal creates a Zen-like feel, projecting a refined elegance. Light oak wood furnishing is custom made by the design team. Geometric-pattern cabinets and stainless steel paneling are special features. Clean and simple bookcases fuse with metal and wood. White and neutral tones, the use of glass walls are in contrast with the dark vintage wooden flooring. Stefano Tordiglione Design's talented group of designers flexes their creative muscles but also retains the unique identity of the Italian law firm.
