BODHI VENUE
HHC DESIGN SOLUTION

Due to the urgent needs of being "trendy & unique," BODHI VENUE uses design to narrate a consumption fable. Through the given theme on each floor, the designer arranges the combination of brands with different tastes together to create a novel sensual experience and a life theater with warmth.

A brand new spatial combination interprets our understanding of happiness.

Today, a commercial market that relates to our livelihood also continues to evolve to form a close tie to our constant changing life mode.

Therefore, by using a brand new spatial combination, BODHI VENUE interprets our understanding of happiness today!

BODHI VENUE department store is born due to the urgent needs of being "trendy & unique," and it uses design to narrate a consumption fable. Through the given theme on each floor, the combination of brands with different tastes together to create a novel sensual experience and a life theater with warmth.

Umix Top Underwear Multi-brand Store
AS Design Service Limited

When two or more opinions and ideas occur simultaneously without causing contradictions, we call this compatibility phenomenon, coexistence, mutual tolerance and ideology compatibility.

UMix is a world famous brand in men and women underwear and casual wear led shop. Designers felt there are many different opinions and philosophies between the sexes today, and hope to use the compatibility phenomenon as a new image to be the core design concept of UMix shops, that men and women are compatible of the modern ideology of mutual tolerance.

The use of different size, different angles of polygons to describe their own opinions and the independence idea of both the sexes, and after being compatible, not only having idea of independence, but also it will create a more extended ideological significance and provide a new space for thinking philosophy.
